Diversification training

Densholme Farm in East Yorkshire has established a very successful and profitable care farm on less than 2% of its 270 acres.

Care farming is the innovative use of agriculture to promote therapy, rehabilitation, social inclusion, education and social services.

Densholme Farm is holding an accredited training course for those interested in this exciting industry. It has been made possible by the Access To Farms partnership.

Dr. Rachael Fell-Chambers, course tutor, says: "I will facilitate discussion around care farm operations and share many examples from practice. Aspects of health and safety and safeguarding are covered within the course as well as planning activities on your farm.

"The course content also aligns with the Care Farming Code of Practice so you will be armed with plenty of information to apply for that standard."

The course takes place on February 16th and 17th 2022.
